Program Agenda

Implementation of Biomarker Methods in a Regulated Environment

Rafiq Islam, Executive Director, Bioanalytical Services, Celerion

- Impact of new FDA Bioanalytical Guidance (2018) and ICH M10 (2019) Guidelines
- Celerion's three tier validation approach
- Case studies that illustrate the implementation for biomarker methods including flow cytometry

Speaker Biography

Rafiq Islam is Executive Director of Bioanalytical Services at Celerion. In his current role, he is responsible for the scientific and operational leadership of both small and large molecule bioanalysis which includes the development, validation bioanalytical methods and execution of sample analysis to support pharmacokinetic, immunogenicity, bioequivalence and biosimilar studies. Previously, he served as the Scientific Director for Biopharma Services at EMD Millipore. He held similar positions as the head of a bioanalytical department at Covance and Huntingdon Life Sciences. He also held several positions of increasing responsibility with Curagen Corporation. He has over 18 years of biotechnology industry experience.
