

OPEN FOR BUSINESS: EARLY PHASE CLINICAL DRUG DEVELOPMENT DURING THE COVID-19 PANDEMIC

We have taken a proactive approach to conducting business, now when research is needed more than ever. Our strengths lie in being flexible and nimble, which is a benefit during times of uncertainty.

Our 'New Normal' is built on three key pillars; Safety, Resources and Communication.

SAFETY

We have incorporated several measures to screen, clean and isolate for COVID-19 virus during trial operations.

Health Checks

PPE

COVID-19 Testing

Enhanced Cleaning Procedures

Social Distancing

RESOURCES

We have the essential resources in place to safely and effectively execute your clinical trial.

Supply Chain

Celerion Express

Bed Capacity & Space

Pharmacy Capabilities

Recruitment

Experienced Workforce

COMMUNICATION

With conditions rapidly changing, effective communication among all stakeholders is critical.

Response Plans

Adapting to Regulatory Guidance

Leveraging Technology with Celexus®
